Wednesday, January 26, 2-7pm, Student Union

Looking to get more involved this semester? The Involvement Fair is an easy way to explore many of the exciting opportunities available to you on campus. With more than 200 student organizations represented, this event is a great way for students to find something enjoyable to be a part of, discover a new interest, and meet new people. Getting involved can help you build your resume, expand your horizons, develop your leadership skills, and have fun all while doing something that interests you. This fair is sponsored by the Student Activities Involvement Office and is open to the entire university community.

For more information about the fair please e-mail dsaSOS@uconn.edu or visit the Involvement Office, Student Union, Room 302.

Neuroscience in Salamanca, Spain Info Session
Wed, Jan. 26th, 5pm, Wilson 112
UConn Neuroscience in Salamanca Spain is sponsored by the Honors Program and the UCHC Department of Neuroscience and aims to introduce students to neuroscience at the international level. This five week program will be taught by international scientists, and students will have the unique opportunity to learn about neuroscience while being immersed in Spanish culture. To learn how to apply, come to this information session presented by Dr. Douglas Oliver, Program Coordinator, and Dr. Dora Hast from the Office of Study Abroad. For more information, email: honorsevents@uconn.edu

Other information about events at the CUE building can be found at cue.uconn.edu
The Quantitative Learning Center (Q Center) is a resource for students taking quantitative intensive courses (Q) across the undergraduate curriculum. The Q Center is designed to support in-class learning and instruction by providing assistance to students via free drop-in peer tutoring, review sessions, and the creation of innovative learning tools. We assist Q faculty to incorporate best practices in their teaching, and serve as a clearinghouse for information about Q resources and discussion of Q issues within the university.

As a reminder, the Q Center is located on first floor of the Homer Babbidge Library, our hours of tutoring operations are Monday through Thursday, 11am to 11pm and Sundays, 1pm to 11pm, and we offer tutoring for:

- MATH 1011-1152
- CHEM 1124-1128
- PHYS 1010-1602
- STAT 1000-1100
