The CUE team would like to congratulate Lisa Von Munkwitz-Smith on her retirement! Lesa served as Program Assistant for the FYP & LC office, focusing on the arts and their role in the University. Lesa will be relocating to Boston with her husband, Jeff Von Munkwitz. We will miss her greatly in the CUE, and wish her all the best!

Kevin Sullivan is the Director of the Academic Achievement Center (AAC), working out of the office of First Year Programs and Learning Communities. The AAC provides academic skills coaching to students in areas such as study skills, time management, test taking, textbook reading and stress management.

Kevin has been a staff member at UCONN since 1990. Kevin finds immense satisfaction in working with students. He is motivated by “helping students find their power,” and “watching a student who finally gets that they can create a satisfying life.” Kevin genuinely feels that students can succeed, and has the ability to communicate this belief to the students he works with. Kevin says that he sees the humanity in the students who seek his help.

Outside of work, Kevin is interested in the arts. He says he especially loves live music and has recently started recording his own music. Kevin explained that he finds this extremely rewarding because he has been exposed to new music and has built relationships with people who may not otherwise have had the opportunity to meet. Kevin also has some interests that may surprise students. For example, he shared that he played on a rugby team as a hooker for four years.

If you would like to include information in the “This Week at the CUE” about events, information sessions or workshops taking place in the CUE, please send an email to cueinfo@uconn.edu. Information is needed at least one week in advance.
We are excited to announce that the CUE will now house a display case in which we will showcase the exciting achievements of the CUE community. This will include photos and information from all departments within the CUE. Bring your materials to Room 235 as soon as possible so we can share our successes with everyone on our campus.

**Student Spotlight**

A new team member, Alissa Anthony, has joined the CUE as an information desk attendant. Alissa made the move from Chicago to Storrs in August to begin her career as a UCONN student. Since arriving, she has become a part of the Pre-Dental Society and the Autism Speaks U program.

Alissa’s career goal is to become a pediatric dentist, focusing specifically on helping children with special needs. She says that by being the best possible dentist, she knows she can change the lives of the children and their parents. Alissa explained that her career goals keep her motivated in school, because she knows that if she works hard now, she will be able to have her dream job later in life.

When she is not working or studying, Alissa loves to shop. She explained that “it doesn’t even matter what it is for”, as long as it is shopping! Alissa recently took up snowboarding, and said she loves the sport even though she isn’t very good at it. She also wants to try sky diving someday. Alissa also likes to spend her free time volunteering, and she says that she gets a lot of enjoyment out of it. In the future, Alissa hopes to travel the world. She also says she can’t wait to have her own house so she can decorate it.

Alissa enjoys her job at the information desk in the CUE. She says she especially likes helping with decorations for the bulletin board, because it involves creativity and crafting. Next time you walk by the info desk, stop and say hello to Alissa, she would love to chat with you!

**CUE Display Case**

We are excited to announce that the CUE will now house a display case in which we will showcase the exciting achievements of the CUE community. This will include photos and information from all departments within the CUE. Bring your materials to Room 235 as soon as possible so we can share our successes with everyone on our campus.
